Global Business Management · Kyungsung University · Busan, South Korea

PLAN PERIOD
June – November 2025

TARGET ROLE
Data Analyst

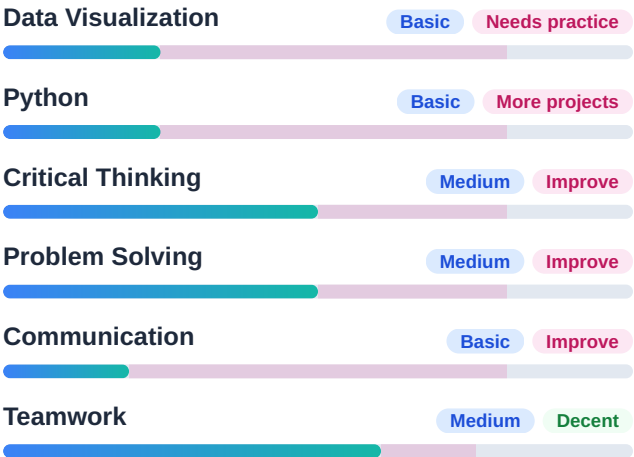

TARGET INDUSTRY
Banking

TARGET CAREER

Data Analyst — Banking Industry

Secure internship by Fall 2025 · Build project portfolio · Strengthen technical and analytical skills

SKILL GAP ANALYSIS

SMART GOALS

- 1 Build several data visualization projects covering charts, dashboards, and storytelling with real datasets.
By Summer 2025
- 2 Improve critical thinking by analyzing and reverse-engineering published projects online, documenting key takeaways.
June – August 2025
- 3 Secure a data analytics internship in Korea by applying actively, preparing for technical interviews, and building a strong LinkedIn profile.
By Fall 2025

ACTION PLAN

GOAL	ACTION STEPS	TIMELINE
● Improve Visualization	Build 3+ projects using Matplotlib, Seaborn, and PowerBI on banking and retail datasets. Publish each to GitHub with a write-up.	June – July 2025
● Critical Thinking	Study and document 2 published data projects per month — identify methodology, findings, and improvements.	June – August 2025
● Gain Internship	Apply to 5+ positions per week on Saramin, Wanted, and Jobkorea. Prepare technical interviews and follow up within 7 days of each application.	August – November 2025
